

TL60 ROAD TOW

MORRIS SITE MACHINERY

Smart and manoeuvrable.

The compact SMC TL60 Road Tow is the latest lighting innovation from Morris Site Machinery, offering an easily transportable tower that doesn't compromise on output.

The four powerful 320W LED lights provide in excess of 130,000 lumens. The Road Tow is available with a 2.1 kVA diesel generator, weighing in at 470kg fully fuelled. There are also options to operate from the mains, 110V sockets or a linked lighting process with inlet and outlet sockets.

The new light has a 355° mast rotation, manual winch, two extendable easy wind down stabilisers and one drop down stabiliser, making it the ideal compact solution for illumination.

BUILT TO PERFORM

Specification

Generator (optional)	Coelmo DVLM1
Engine	Yanmar L70N Air-Cooled 3000 rpm
Alternator	Mecc Alte S16W-105/2
Continuous Power / Standby Power	2.1 kVA / 2.2 kVA @ 0.8PF
Voltage	230V
Fuel Tank Capacity	10.5 Litres (Coelmo DVLM1 generator)
Noise Level @ 7 Metres	71 dB(A) approx.
Fuel Consumption (lamps only)	0.65 l/hr (estimated)
Maximum Run Time (4 Lamps Only)	16 hrs
Power Outlet Sockets	2 x 16 Amp, 230V
Mast Maximum Height	5965mm, Zinc Plated
Number of Mast Sections	4
Mast Rotation	355° (Manual)
Mast Erection	Manual Winch (Automatic brake)
Lamp Specification	4 x 320W LED
Stabilisers	2 Wind Down / 1 Drop Down Jack
Fork Pockets	Entry from end
Dimensions for Transport (W x L x H)	1330mm x 2500mm x 2475mm (Lamp bar horizontal)
Dimensions Fully Deployed (W x L x H)	1315mm x 2880mm x 5965mm
Tyres	145 R10 74N
Weight	470kg (Fully fuelled)
OPTIONS	
Mains Supply	110V / 230V
Link Lighting	Inlet & outlet sockets to suit requirement
